Turned off by high utility costs?

So was our homeowner Carrie, before she bought a Meritage home.

When I was twenty-four years old, I kept myself on a strict budget. Despite my finances, I took a chance and purchased a new Meritage home. It was the smartest decision I could have made.

The amazing thing I've noticed is that, as the months have passed, my electric bills have decreased. It seems unbelievable, but when I compare my current electric bills to those when I lived in a much smaller apartment, the difference is stunning.

I love all the energy-saving features Meritage built into my home, especially the programmable thermostat. It allows me to adjust the temperature inside my home, so it uses less electricity while I'm away during the day. Yet when I return home in the evening, it's cool and comfortable. Plus, it now seems like I always have money left over at the end of every month.
